Referral Rewards (Passive Income)

If you invest $500, you can earn referral rewards up to 10 levels based on the investments made by the people you refer, and their referrals, in a sequence. These rewards are calculated as a percentage of the total investment at each level.

Here's how the referral rewards are structured:

- **Level 1**: 5% of the total investment
- **Level 2**: 4% of the total investment
- **Level 3**: 3% of the total investment
- **Level 4**: 2% of the total investment
- **Levels 5-10**: 1% of the total investment

Let's assume you refer others who each invest the same amount ($500). Your passive income through the referral system would be:

Level	Income (Based on $500 Investment)
Level 1	$25 (5% of $500)
Level 2	$20 (4% of $500)
Level 3	$15 (3% of $500)
Level 4	$10 (2% of $500)
Level 5	$5 (1% of $500)
Level 6	$5 (1% of $500)
Level 7	$5 (1% of $500)
Level 8	$5 (1% of $500)
Level 9	$5 (1% of $500)
Level 10	$5 (1% of $500)

Total Passive Income for 10 Levels:

$100 (if all referrals invest $500 each)

This referral reward system provides an opportunity to earn passive income based on the investments made by your network up to 10 levels deep. The more people you refer, and the more they refer others, the greater your potential earnings.

Reward Structure

Reward in Native Token: For investments below 30,000 USDT, rewards will be issued in the form of the native token. This token can be utilized within the LTL ecosystem or in any of its upcoming products.

Reward in USDT: For investments exceeding 30,000 USDT, rewards will also be provided in the form of the native token, which can either be used within the LTL ecosystem and its future products or withdrawn as USDT directly from the website.

LTL can also be moved to Azbit.com and traded to enhance your holdings!

Users can withdraw the rewards on Monthly basis in LTL tokens only.

Minimum Investment: 500 USDT
