

Staking Rewards

How It Works: If you invest money, it will grow monthly.

- 9 Month, APY 9%
- 12 Month, APY 12%
- 18 Month, APY 18%
- 24 Month, APY 24%

Key Rule: Your investment is locked for the chosen period, so you can't withdraw early.

Staking Rewards Example

If you stake (invest) \$500, your investment will grow monthly based on a fixed ROI (Return on Investment) for the chosen period. The profit will be added at the end of each month, but your investment remains locked for the entire period, meaning you cannot withdraw it before the staking term ends.

Here's an example of how your profit will grow over time with different ROI percentages for 9 months, 12 months, 18 months, and 24 months.

9-Month Plan (Monthly ROI: 9%)
